Address : Jogeshwari (E), Mumbai - 40060.

## Profile Summary

Highly motivated Full Stack Developer with 2+ years of freelancing experience developing scalable web applications using React.js, Next.js, Node.js, Express.js, and MySQL/MongoDB. Skilled in UI/UX design, responsive layouts, API integration, authentication, and real-time systems. Proficient in Git/GitHub, RESTful APIs, Docker, Jenkins, and Agile methodologies. Strong problem-solving skills with experience in CI/CD pipelines, testing, and cloud deployments.

## Experience

### Inventory Management System | Delta Soft Sys. (Aug 2024 – Nov 2024)

- Developed a full-stack web app to automate stock management, vendor orders, and tax invoice generation.
- Built using React.js, Node.js, Express, and MySQL, achieving a 40% reduction in manual processing time.
- Implemented JWT authentication, real-time updates, and dashboard analytics

## Projects

### Forever – Modern Clothing E-Commerce Web App

- Developed a full-stack MERN e-commerce clothing platform with responsive UI and optimized user flows.
- Implemented secure JWT authentication, user login/signup, and role-based access control.
- Integrated Stripe/Razorpay payments along with complete cart, checkout, and order management features.
- Built an Admin Dashboard for product uploads, inventory control, and tracking real-time orders.

### Real-Time Chat Application (MERN Stack)

- Built a real-time chat application with one-to-one messaging and live typing indicators.
- Implemented Socket.io for instant communication, message broadcasting, and user online/offline status.
- Integrated JWT authentication, protected routes, and secure login/signup
- Added message timestamps, read receipts, and chat history using MongoDB

## Skills
